OBJECTIVE

To obtain a position in an environment where I can utilize creative thinking, a strong sense of design and software knowledge.

SKILLS

Well versed in current graphic and web design software including but not limited to the following:

- Adobe Photoshop, Illustrator, InDesign, GoLive, Streamline, Acrobat Professional
- Quark Xpress
- Macromedia Flash
- Microsoft Office, Visio
- experienced in digital photography including product shots
- Macintosh OS X and Windows XP operating systems

EXPERIENCE

March 2002 - Present

*Corporate Edge/Special Recognition
Whitehouse Station NJ*

Web & Graphic Designer

Ecommerce site design, print, digital photography are among the varied tasks performed while adhering to corporate identity standards. Streamlined proofing and production reference methods by initiating use of PDF documents. Converted many existing table based layout sites to style sheet layout simplifying site maintenance tasks.

January 1999 - March 2002

*radonsupplies NA
Frenchtown NJ*

Sales/Marketing

Responsibilities included purchasing, supervising order entry, web site maintenance, catalogue development and physical inventory. Developed company's initial web presence and initiated a quarterly catalog mailing, both of which increased customer loyalty and brand recognition.

December 1995 - December 1998

*North American Plastic Technologies Corporation
Frenchtown NJ*

Production Manager

Scheduled job priorities, supervised team consisting of 30 employees and responsible for order fulfillment from quotation to shipment. Company specialized in the manufacture of custom plastic containers for medical and industrial applications. Product categorizing system developed allowing easier job history referencing and price quoting.
